

Expert care with a personal touch

Certificate of Accuracy

September 1, 2024

I, Juli Hester, affirm, to the best of my knowledge and belief, that Pomona Valley Hospital Medical Center has included all applicable standard charge information in its machine-readable file in accordance with the requirements of Section 2718 of the Public Health Service Act (PHS Act), and the information encoded is true, accurate, and complete as for the calendar quarter of this signed document. The frequent changes in the machine readable file within the quarter is often due to change in lab cash pricing, which is derived from Medicare rates and the update may be nominal.

A handwritten signature in cursive script that reads "Juli Hester".

Juli Hester, Chief Financial Officer
